Loved by recruiters worldwide

Here's what our customers say about HIRERIGHT[TT]

★★★★★

"HIRERIGHTTT transformed our senior engineering hiring across East and West Africa. Ava's AI video assessments screen technical talent with zero bias and saved our hiring committee over 65% of screening hours."

Amara Okafor
VP of People & Talent
Flutterwave

★★★★★

"Evaluating software architects in Nairobi and Johannesburg used to take weeks per candidate. With HireRighttt's autonomous AI interviews and code benchmarks, our time-to-hire dropped to under 6 days."

Kofi Mensah
Head of Technical Talent Acquisition
Standard Bank Group

★★★★★

"The bias-free scoring matrix and enterprise audit logs gave our executive committee total confidence to scale digital engineering teams across 14 African markets."

Zainab El-Mansouri
Director of Global Recruitment
Deloitte Africa

✦ THE COMPLETE HIRING JOURNEY

How HireRighttt Works: From Screening to Hired.

See how our AI video interview platform transforms hiring for both ambitious job seekers and forward-thinking engineering recruiters.

Candidate Journey | Employer & Recruiter Journey

01

Smart Ingestion & Resume Parsing

Drop your resume (PDF or Word). Our intelligent parser extracts your technical skills, seniority level, past roles, and achievements in under 10 seconds.

✓ Instant skill graph generation

02

Ava's AI Video Interview Studio

Enter the interactive video room. Ava asks targeted technical and architectural questions tailored directly to your resume and target role. Speak your answers naturally.

✓ Speech-to-text & anti-cheat proctoring

03

04

Multi-Dimensional Scorecard

Ava generates an instant breakdown across Technical Depth, Communication Clarity, Problem Solving, and System Design with detailed strengths and growth recommendations.

✓ Certified 0–100 Talent Score

Ranked Matches & Direct Offers

Your certified score unlocks matching company openings. Apply with a single click and land directly at the top of hiring managers' candidate shortlists.

✓ 4x faster time-to-offer

TRY AVA NOW

Ready to Experience Your AI Video Interview?

It takes less than 12 minutes to receive your certified score and unlock ranked top match jobs.

Unlock ranked company openings. Apply with 1 click using your certified score and stand out at the top of the recruiter's pipeline.

VERIFIED SUCCESS STORIES

Engineers Who Landed Offers

"I applied to 120 companies on traditional job boards without a single response. With HireRighttt, I did one 12-minute AI interview with Ava, scored 92, and received two direct recruiter reach-outs in 48 hours."

Devika Sharma
Senior React Engineer · Hired at TechCita Solutions

"The ability to practice and immediately see my category breakdown (Technical Depth vs Communication) helped me fix my pacing. It completely removes the black-box anxiety of tech recruiting."

Rohan Mehra
Cloud Architect · Hired at CloudScale

"As a self-taught engineer without an Ivy League degree, resumes always filtered me out. Ava evaluated my actual system design skills and code structure. The score spoke for itself."

Priya Nambiar
Full Stack Engineer · Hired at FinTech Labs

THE FUTURE OF HIRING

Why HireRighttt? The Proof Is In The Interview.

Traditional resume screening is broken: 80% of top engineers are filtered out by keyword scanners, while recruiters spend weeks on repetitive initial calls. We built a better way.

Resume Boards vs. HireRighttt

Evaluation Dimension	Legacy Job Boards & ATS	HireRighttt AI Studio
Candidate Evaluation Basis	✕ Keyword matching on PDFs (easily gamed with ChatGPT)	✓ Live spoken video screen with dynamic questions & reasoning
Screening Turnaround	✕ 7–14 business days of manual recruiter review	✓ Instant: 12 minutes to certified multi-dimensional score
Integrity & Anti-Cheat	✕ Zero verification; ghostwriters and proxy interviewers	✓ Real-time computer vision proctoring & multi-face detection
Candidate Experience	✕ Ghosted in 95% of applications with zero feedback	✓ Actionable scorecard with strengths & growth areas for all

Evaluation Dimension	Legacy Job Boards & ATS	HireRighttt AI Studio
Recruiter Time per Candidate	✕ 45–60 mins per initial screening phone call	✓ 3 mins reviewing AI summary & timestamped key moments

OUR CORE VALUES

Built on Four Pillars of Integrity

Capability Over Keywords

Great engineers aren't always great resume writers. Ava focuses on how you articulate architecture tradeoffs and solve problems in real-time.

Bias-Free Standardization

Every candidate receives the exact same objective rubric across Technical Depth, Communication, Problem Solving, and System Design.

Verified Anti-Cheat Integrity

Computer vision validates single-person presence and eye gaze to guarantee fairness so honest candidates rise to the top.

Private & Local First

Candidate recordings and assessments stay private. Videos are saved securely on local storage and shared only with approved employers.

RECRUITER TIME & COST SAVINGS

Calculate Your Monthly ROI

Monthly Candidates Screened: 50

Based on an average of 45 minutes saved per candidate screen and $65/hr recruiter cost.

Recruiter Hours Reclaimed:	38 hrs / mo
Estimated Cost Savings:	$2,470 / mo
Time-to-Hire Reduction:	60% faster

Experience the Difference First-Hand

AI INTERVIEW MASTER RESOURCE HUB

Ace Your Interview. Prove Your Mastery.

Everything you need to master your AI video screening with Ava — interactive STAR response tools, camera setup checklists, scoring rubrics, and engineering guides.

All Resources | STAR Method Builder | Scoring Rubrics | Setup Checklist | Prep Guides | FAQ

INTERACTIVE WORKSHOP

The STAR Response Framework

Ava scores responses structured in Situation, Task, Action, and Result significantly higher than unstructured answers. Test and fine-tune your responses below.

S

Situation

Set the context in 1–2 sentences. What was the project, timeline, and stakes?

T

Task

State your specific responsibility or the central obstacle to solve.

A

R

Action

Detail your exact decisions, tools, code, or architecture tradeoffs.

Result

Conclude with measurable business or engineering impact (%, ms, revenue).

Behavioral · Leadership

"Describe a challenging technical disagreement you had with a team member and how you resolved it."

Sample #1 | Sample #2 | Sample #3

Situation: During our Q3 migration, my tech lead favored a monolithic Redis cache, while I advocated for partitioned DynamoDB clusters to avoid a single point of failure.
Task: I needed to resolve the deadlock within 48 hours without delaying our launch.
Action: I created a quick benchmark script simulating 50K concurrent writes and shared the p99 latency numbers openly. We then held a 30-

91 words (Perfect length: 60–150 words)

Clear | Practice Out Loud →

TRANSPARENT EVALUATION

What Ava Looks For

No black-box scoring. Every candidate is evaluated across four core dimensions calibrated to enterprise hiring benchmarks.

30% WEIGHT

Technical Depth

Knowledge of systems architecture, language nuance, database optimizations, and design patterns.

- Concrete architectural trade-offs

25% WEIGHT

Communication Clarity

Ability to articulate complex engineering concepts concisely and structure thoughts on the spot.

- Clear STAR structure in narrative

- Memory, latency & scaling concerns
- Industry-standard best practices

- Targeting 60–150 spoken words per answer
- Confident pacing and steady gaze

25% WEIGHT

Problem Solving

How you handle edge cases, navigate ambiguity, isolate root causes, and iterate toward solutions.

- Systematic troubleshooting process
- Acknowledging edge cases and risks
- Balancing speed with code quality

20% WEIGHT

Role & Experience Fit

Alignment with real-world seniority expectations, project leadership, and resume track record.

- Authentic project impact stories
- Cross-functional team collaboration
- Continuous learning mentality

ENVIRONMENT PREP

Studio Setup Checklist

Take 3 minutes to optimize your space before launching the interview studio.

Lighting & Framing

- ✓ **Front lighting:** Have light facing you, never directly behind you.
- ✓ **Eye-level camera:** Elevate laptop so camera is at natural eye height.
- ✓ **Center framing:** Keep head and shoulders clearly centered in the box.

Audio & Acoustics

- ✓ **Headset recommended:** Prevents speaker echo during speech recognition.
- ✓ **Quiet room:** Close windows and silence phone notifications.
- ✓ **Consistent volume:** Speak clearly at normal conversational volume.

Proctor Integrity

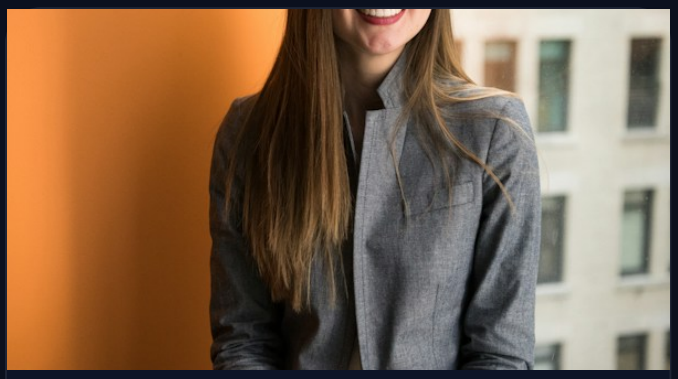

- ✓ **Single person only:** No other individuals may enter camera frame.

- ✓ **Direct gaze:** Keep attention focused on Ava and the screen.
- ✓ **Browser permissions:** Allow camera and mic permissions when prompted.

DEEP DIVES

Curated Interview Playbooks

In-depth articles written by recruiters and engineering leaders to help you excel.

ABOUT HIRERIGHTTT

Reinventing the Initial Screen — Through Real Conversation.

We believe hiring should begin with genuine capability, not resume formatting. We built HireRighttt to give every candidate a fair stage to showcase their engineering mastery.

Our Mission & Technological Architecture

Every year, millions of qualified engineers are filtered out by outdated keyword ATS bots before a human ever speaks to them. HireRighttt solves this by putting an empathetic, intelligent conversational agent — Ava — at the front of the hiring funnel.

Powered by high-throughput LLM reasoning, on-device computer vision proctoring via MediaPipe, and real-time speech recognition, Ava conducts structured 12-minute technical screens that replace two weeks of manual recruiter calls.

LEADERSHIP

Meet the Builders Behind Ava

Aarav Patel

Co-Founder & CEO

Former VP of Talent at hypergrowth scale-ups. Passionate about removing resume friction and building meritocratic hiring.

Dr. Elena Rostova

Chief AI Scientist

PhD in Multimodal AI & NLP from Carnegie Mellon. Architect of Ava's conversational reasoning and anti-bias scoring algorithms.

Karthik Raman

Head of Engineering

Ex-Google infrastructure lead. Built low-latency video streaming pipelines, real-time WebRTC proctoring, and OpenATS integrations.

ENTERPRISE TRUST

Security, Ethics & Compliance

SOC 2 TYPE II

EEOC COMPLIANT

Enterprise Data Security

All candidate data, profiles, and interview sessions are encrypted at rest (AES-256) and in transit (TLS 1.3).

Algorithmic Fairness

Our scoring models undergo continuous disparate impact audits to ensure zero demographic, gender, or accent bias.

GDPR & PRIVACY

Candidate Right to Deletion

Candidates retain full ownership of their recordings and scorecards with 1-click data export and complete purging.

Save & Exit

Step 1 of 5

WAITING ROOM

Hi Arjun, meet your interviewer Ava

A live spoken video interview — same format as CloudHire / Micro1 style screens. Ava asks out loud; you answer on camera.

You

Enable camera to preview how you'll appear

Arjun

Camera | Mic | Speech | AI voice

Allow camera & mic | Continue without camera

Camera is required. Face tracking runs for the full interview — one person, facing forward.

Camera or microphone blocked. Allow access in your browser, or continue without camera.

● Waiting for camera...

● ✓ OpenRouter API Key is LIVE & WORKING!

Ava

AI Interviewer · HIRERIGHT[TT]

ROLE TRACK

Frontend Developer | Full Stack Engineer | Backend Developer | Data Analyst | AI / ML Engineer | Product Manager

LEVEL

Fresher | 1–3 years | 3–6 years | 6+ years

Target Job Description (JD) — Tailors AI questions to JD + Role

Paste the Job Description (JD) or key responsibilities here (e.g. 'Senior Frontend Dev: React, TypeScript, Performance optimization, State management...'). Ava will generate tailored JD questions!

Upload a resume first

- Go to onboarding and upload your resume so Ava can ask accurate questions.

Before you join

- Only you in frame — extra people bans the interview
- Face the camera (not the side) the whole time
- Sit close enough that your face is clearly visible
- Speak clearly — Ava listens and transcribes live

- [ ] I am alone in a quiet place
- [ ] My face is visible and facing the camera
- [ ] I will answer out loud

Enter interview room

Complete the checklist and enable camera to join.

Welcome back, Arjun
